MODERN SPROUT INDOOR HERB GARDEN

\$34⁵⁹

Thyme to test out your green thumb? This Modern Spout Indoor Herb Garden is kind of a big dill. Whether you're a chronic over-waterer or typically forget about your plants until they're long past dead, this hydroponic self watering system helps deliver the perfect amount of water every time. To start your indoor garden, simply add water and set in a sunny window - it's the easiest growth your brand will ever see! Be-leaf it or not, the hydroponic system can be reused when your plant outgrows the pot which will keep your logo from missing a beet!
