

NON-CONTACT INFRARED THERMOMETER

\$14⁸³

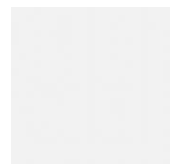

Minimum order of 1000 pieces

Taking your clients' temperature has never been easier! Just kidding. But really, as workforces return to the office, keeping everyone safe and germ free is essential. These branded thermometers are a great way to ensure your brand is protecting those that it serves, and quickly at that! This thermometer has a one second response rate and offers precise readings withing half a degree. In addition, the backlit LED screen offers easy reading capabilities and the automatic power off ensures you aren't wasting battery when the thermometer isn't in use.
