TRAVEL SOFT MOUSE PAD

\$360

This one is for all of us between coffee shop meetings, home work stations, and office desks. The Travel Soft is a thin microfiber mouse pad that's thin enough to store in a closed laptop – doubling as a keyboard/screen protector. As if it needed one more design feature, the surface is a soft microfiber cleaning cloth to clean off that laptop screen. The nonskid rubber base makes it perfect for any work surface and with anti-microbial additives, it's protected from odors and stains. We doubt you'll ever pack up your mobile office without it again.

FEATURES

- Microfiber Cleaning Cloth
- Rubber Base to Grip Your Desk
